PROJECTS

1. AFHC Application(RKSK) : A government-backed app under India's Health Ministry, used across India's Adolescent Friendly Health Clinics (AFHC) to manage patient records.

2.Helioz Application : Developed for a Tanzanian company, Helioz, this app tracks users of water purification machines and operates in multiple countries, including India.

3.HLRN Application :An NGO-focused app for collecting data on homeless individuals, used to support social welfare initiatives.

4.MKCF Application: This app, managed by Mekong.org, operates across six countries, handling project data through a web and mobile platform.

5.Our Green Planet(VI):The project focuses on e-waste management with tree plantation and Games sections. Libraries have been updated and new sections added by me.

6.AstroSutraa Application:An astrology app where users can consult astrologers live via messaging or calls to get insights on zodiac signs, similar to AstroTalk.

7.TGHOI:An hotel booking app where employees book hotels using a unique code. No personal payment—everything is managed by your company. Fast, simple, and secure.

8.BOGO:bogo is a fast and reliable cab booking app for daily commutes and travel. Whether it's a bike or cab, BOGO gets you affordable rides in minutes—safe, easy, and on time.
